U.S. Department of the Interior Bureau of Land Management San Luis Valley Field Office 46525 Highway 114 Saguache, CO 81212

CATEGORICAL EXCLUSION

NUMBER: DOI-BLM-CO-F03-2014-009-CX

CASEFILE/PROJECT NUMBER (optional): Permit # CO-500-OG-10-01

<u>PROJECT NAME</u>: Recreation – Special Recreation Permit – Rock Climbing, Mountain Biking, Hiking in the Penitente Canyon Special Recreation Management Area (SRMA) and Mountain Biking and Hiking in the Poncha Loop Recreation Area

PLANNING UNIT: San Luis Area #1

<u>LEGAL DESCRIPTION:</u> Saguache County

New Mexico Principal Meridian

T. 48 N., R 8 E.,

secs. 15, 16, 21, and 22.

<u>APPLICANT:</u> Jeff Berger, Rocky Mountain Council, Boy Scouts of America, d.b.a Rocky Mountain High Adventure Base

DESCRIPTION OF PROPOSED ACTION

The applicant currently holds a 10-year permit expiring 12/31/2020. The Proposed Action would allow the above applicant to utilize their permit for commercial use in Penitente Canyon SRMA (see map below) for guided rock climbing and mountain biking; and in Poncha Loop Recreation Area (see map below) for guided mountain biking. The BLM will allow Boy Scouts of America 2000 service days within the permitted area with a maximum of 45 participants per day. BSA plans to conduct guided rock climbing and mountain biking activities during the summer months between Memorial Day and Labor Day of each calendar year.

BSA- Rocky Mountain High Adventure Base is committed to resource protection including the education of Leave NO Trace and Tread Lightly principles and understands that cultural resources are protected by federal laws and regulation and shall not be collected or moved from their original location. BSA will travel to location by motorized vehicles, mountain bikes, and foot. BSA will only travel on legal system road or mountain biking trails authorized for this specific use and will park vehicles in existing parking areas or concentrated use areas. All other travel will be by foot. BSA participants will camp at their Rocky Mountain High Adventure Base Camp located on the north side of Poncha Pass on the west side of State Highway 285. Camping is also permitted within Penitente Canyon Campground. All camping fees and regulations apply.

No authorization is included in the analysis for dispersed camps, staging area, trail constructions, or other forms of concentrated use on BLM Lands. Any proposal for such activities would require a separate analysis.

Authority to issue SRP's is found in BLM SRP Handbook H-2930-1 and 43 CFR Part 2930. Issuing an SRP is a discretionary action with final approval by the authorized officer. Applications may be denied based upon factors such as non-compliance with land use plans or designations; a moratorium on permits issued as part of a planning process; the results of an environmental analysis; other resource values; an allocation system; public health and safety concerns; applicant's past performance; or the inability of the managing office to issue, manage, and monitor the proposed use.

Use of BLM public land is non-exclusive. Commercial use, competitive use/events, or organized group use in Penitente SRMA is year-round, unless there is a Special Order to close for resource protection or improvements. The SRMA is subject to seasonal closures based on weather conditions. Poncha Loop is subject to seasonal road closures for resource protection during the spring run-off, and may be subject to other resource protection or improvement reasons at any time.

Rock Climbing: The Proposed Action does not allow permitted groups to create new climbing routes. Replacement of existing anchors or bolts on established climbing routes is prohibited unless authorized by the authorized officer for safety and resource protection reasons. Climbers should not in any way deface rock surfaces, should minimize chalk use and brush off heavily chalked holds, and follow Leave No Trace principles.

Mountain Biking: The Proposed Action does not allow the permitted group(s) to create new trails. Do not cut switchbacks. All mountain bikers need to remain on designated mountain biking trails (see trail map below and the designations of each trail), and follow the rules of Stay the Trail to prevent resource damage. Improper bike riding techniques can harm trails and diminish trail experiences for others. Remain in control of your bicycle at all times and remember to share the trail with other users.

PLAN CONFORMANCE REVIEW:

Name of Plan: San Luis Resource Management Plan

<u>Date Approved</u>: December 1991

Decision Number: 1-24

<u>Decision Language</u>: 1-24: To provide special management in areas with significant recreation potential and increased use; e.g., Penitente Canyon, Zapata Falls etc.

<u>CATEGORICAL EXCLUSION REVIEW</u>: This proposed action is listed as a Categorical Exclusion in DOI Departmental Manual Part 516 Chapter 11 H(1). None of the following exceptions in 516 DM 2, Appendix 2, applies.

Exclusion Criteria		NO
1. Have significant impacts on public health or safety.		X
2. Have significant impacts on such natural resources and unique		
geographic characteristics as historic or cultural resources; park,		
recreation, or refuge lands; wilderness areas; lands with wilderness		X

principal drinking water aquifers; prime farmlands; wetlands; floodplains; national monuments; migratory birds; and other ecologically significant or critical areas. 3. Have highly controversial environmental effects or involve unresolved conflicts concerning alternative uses of available resources. 4. Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks. 5. Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects. 6. Have a direct relationship to other actions with individually insignificant but cumulatively significant environmental effects. 7. Have significant impacts on properties listed, or eligible for listing, on the National Register of Historic Places as determined by either the bureau or office. 8. Have significant impacts on species listed, or proposed to be listed, on the List of Endangered or Threatened Species, or have significant impacts on designated Critical Habitat for these species. 9. Violate a Federal law, or a State, local or tribal law or requirement imposed for the protection of the environment. 10. Have a disproportionately high and adverse effect on low income or minority populations. 11. Limit access to and ceremonial use of Indian sacred sites on Federal lands by Indian religious practitioners or significantly adversely affect the physical integrity of such sacred sites.	characteristics; wild or scenic rivers; national natural landmarks; sole or

REMARKS:

Cultural Resources: As the proposed activities are to occur on existing BLM system roads which were analyzed in the SLV RMP Travel Management plan and the likely hood of intact cultural features or insitu materials is not expected, adverse impacts to historic properties are not anticipated.

Discovery and Education: All persons in the area who are associated with this permit shall be informed that any person who injures, destroys, excavates, appropriates or removes any historic or prehistoric ruin, artifact, object of antiquity, Native American remains, Native American cultural item, or archaeological resources on public lands is subject to arrest and penalty of law (16 USC 433, 16 USC 470, 18 USC 641, 18 USC 1170, and 18 USC 1361). Strict adherence to the confidentiality of information concerning the nature and location of archeological resources would be required of the proponent and all of their subcontractors (Archaeological Resource Protection Act, 16 U.S.C. 470hh). If new cultural values are discovered during operations, all work in the vicinity of the resource will cease and the Authorized Officer with the BLM notified immediately. The operator shall take any additional measures requested by the BLM to protect discoveries until they can be adequately evaluated by the permitted archaeologist. Within 48 hours of the discovery, the SHPO and consulting parties will be notified of the discovery and consultation will begin to determine an appropriate mitigation measure. BLM in cooperation with the operator will ensure that the discovery is protected from further disturbance until mitigation is completed. Operations may resume at the discovery site upon receipt of written instructions and authorization by the authorized officer.

Pursuant to 43 CFR 10.4(g), the holder must notify the authorized officer, by telephone, with written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony on federal land. Further, pursuant to 43 CFR 10.4 (c) and (d), the holder must stop activities in the vicinity of the discovery that could adversely affect the discovery. The holder shall make a reasonable effort to protect the human remains, funerary items, sacred objects, or objects of cultural patrimony for a period of thirty days after written notice is provided to the authorized officer, or until the authorized officer has issued a written notice to proceed, whichever occurs first.

Native American Religious Concerns: The Ute, Jicarilla Apache, Ancestral Puebloan and Navajo claim affinity to the San Luis Valley as a whole and Penitente Canyon specifically. The rock art in the canyon is sacred to these tribes and warrants constant monitoring and protection

Threatened and Endangered Species: All persons who are associated with this permit shall check climbing routes for nesting birds during May1 through August 30th prior to climbing. If nesting bird is found near or along route, persons shall utilize another route. Also, all persons who are associated with this permit shall not remove any vegetation along climbing routes or on top of climbing routes.

Threatened and Endangered Species: All persons who are associated with this permit shall check climbing routes for nesting birds during May1 through August 30th prior to climbing. If nesting bird is found near or along route, persons shall utilize another route. Also, all persons who are associated with this permit shall not damage or remove any vegetation, including cleaning moss or lichens along climbing routes or on top of climbing routes.

<u>DECISION AND RATIONALE</u>: I have reviewed this Categorical Exclusion and have decided to implement the Proposed Action.

This action is listed in the Department Manual as an action that may be categorically excluded. I have evaluated the action relative to the 10 criteria listed above and have determined that it does not represent an exception and is, therefore, categorically excluded from further environmental analysis.
